# Celebrate With Tablescapes!

Celebrate With Tablescapes is a customized decorating service for intimate events in the private dining room of 4-5 star restaurants, and entertaining in the home.

The Kee Group will create a tablescape design tailored to the occasion and manage any other request such as: music, ice sculptures, favors, selfie station, and more.

# Meet Portia Kee, Tablescape Designer

***Every design begins with inspiration...***

I was inspired to design at a very young age by my maternal Grandmother. For most holidays, she would design the most beautiful and fanciful tablescapes. I was amazed at her ability to mix different textures of linens, prints, and patterns along with using classic delicate china, unique glassware, matching napkin holders, all topped off with a stunning centerpiece under her crystal chandelier.

I followed in my Grandmother's footsteps and started to create tablescape designs at family dinners, and for friend's birthdays. I never would have imagined that my passion for setting up a pretty table would become a luxurious service for others to experience as they celebrate loved ones, victory moments, milestones, achievements, and life itself.
